CourseTrends to partner with United States Disabled Golf Association

AUSTIN, TX – CourseTrends is pleased to announce a partnership with the United States Disabled Golf Association. CourseTrends is donating its extensive online marketing services to the group in order to help bolster the disabled golf community across the US and bringing golf to more people with disabilities than ever before.

The online marketing services that CourseTrends will provide include web site hosting and design, mobile site hosting and design, email blasts and more. CourseTrends services more than 2,500 courses across the country, and as the leading online golf marketing group in the country, CourseTrends is happy for the opportunity to use its vast knowledge of the industry to help with such a fantastic cause.

The United States Disabled Golf Association is a new and growing organization with a list of goals that include holding the US Disabled Open, coordinating tournaments for golfers with disabilities, integrating disabled US golfers with the international golf movement for able-bodied golfers, motivating more people with disabilities to live a healthy lifestyle through golf, providing scholarships to disabled students, promoting disabled golf through the US, and holding golf clinics for people with disabilities.

“We are thrilled that the United States Disabled Golf Association and CourseTrends are working together to create an online home for disabled golfers to connect, learn more about the sport and participate in tournaments, clinics and other events,” said Jason Faircloth, founder of the United States Disabled Golf Association.

Visit the United States Disabled Golf Association’s new CourseTrends site at www.usdga.net.
